The Skill Satellite Centre at Guwahati Biotech Park (SSC-GBP) is part of a Capacity Building Program for Women under the TDUPW program of the A2K+ Scheme by India's Department of Scientific and Industrial Research (DSIR), GoI. It aims to boost entrepreneurship, skill development, and self-employment opportunities in biotechnology and allied domains.

This initiative aims to promote sustainable livelihood opportunities and enhance community based skills.. Participants will gain practical experience in Bio-fertilizer production and recent advancements in compost preparation techniques, equipping them with the knowledge to pursue self-employment or entrepreneurial ventures in the biotech sector.

**Duration:** Initial training will be on 28th -29th August, 2025 and the onboarded trainees will be provided expert guidance and mentorship up to 3-6 months including field level training, support, and required mentorship.
