

# HANDS-ON TRAINING ON Techniques in Plant Tissue Culture

Organized by: Guwahati Biotech Park

Venue: Micropropagation Facility, TIC, GBP

## TRAINING HIGHLIGHTS

- Introduction to Plant Tissue Culture & Applications
- Sterilization Techniques and Aseptic Practices
- Media Preparation and Culture Initiation
- Demonstration of Explant Inoculation
- Demonstration of acclimatization and Hardening of Plantlets
- Visit to GBP Laboratories & Incubation facilities

Batches commence from: **15th October 2025 onwards**. Colleges/Institutes or any other organizations may communicate to the contact details below for organizing the training

## Key Takeaways

- Insight into the application of tissue culture in research and industry
- Interaction with scientists and experts
- Certificate of Participation from GBP
